

CONTENTS OF VOLUME 7

Number 1

- Influence of Water Source, Treatment, and Distribution on the Variation of Dissolved Gas Levels in Municipal Freshwater Systems 1
JOHN COLT & KRIS ORWICZ (USA)
- Effects of a Bacterial Biofilm on Intensive *Daphnia* Culture 21
R. LANGIS, D. PROULX, J. DE LA NOUË & P. COUTURE (Canada)
- Design and Performance of Paddle Wheel Aerators 39
TAUFIK AHMAD & CLAUDE E. BOYD (USA)
- Evaluation of Plastic Pipe, Paddle Wheel Aerators 63
CLAUDE E. BOYD, TAUFIK AHMAD & ZHANG LA-FA (USA)

Number 2

- The Accumulation of Dissolved Organic Substances in Closed Recirculation Culture Systems 73
K. HIRAYAMA, H. MIZUMA & Y. MIZUE (Japan)
- A Turbidostat Vessel for the Continuous Culture of Marine Microalgae 89
I. LAING & E. JONES (Great Britain)
- Submerged Rock Filter Evaluation using an Oxygen Consumption Criterion for Closed Recirculating Systems 97
DON P. MANTHE, RONALD F. MALONE & SUNIL KUMAR (USA)
- Pond Culture of the Amazon Fish Tambaqui, *Colossoma macropomum*: A Pilot Study 113
NINO MEROLA & FRANCISCO A. PÁGAN-FONT (Brazil)
- A Transportable Seawater Holding Facility for Research Vessels 127
K. G. WAIWOOD (Canada)
- A Bioassay for Production Capacity Assessment 139
JAMES W. MEADE (USA)

Number 3

- Effectiveness of a Commercial-Scale Pressure Shocking Device for Producing Triploid Salmonids 147
 TILLMANN J. BENFEY, PRIMO G. BOSA, NANCY L. RICHARDSON
 & EDWARD M. DONALDSON (Canada)
- Potential Benefits of Low Energy Water Circulation in Hawaiian Prawn Ponds . 155
 GARY L. ROGERS & ARLO W. FAST (USA)
- Optimising the Removal of Suspended Solids from Aquacultural Effluents in Settlement Lakes 167
 J. P. HENDERSON & N. R. BROMAGE (UK)
- Waterflow Requirements for Salmonids in Single-pass and Semi-closed Land-based Seawater and Freshwater Systems 183
 SVEINUNG FIVELSTAD (Norway)
- Design for High Purity Oxygen Absorption and Nitrogen Stripping for Fish Culture 201
 R. E. SPEECE, N. NIRMALAKHANDAN & YOUNG LEE (USA)
- Short Communication**
- Preliminary Study on Dynamic Characteristics of Sewage-mixed Water Body for Aquaculture 211
 A. S. UPADHYAY, V. K. RAI & S. BANDYOPADHYAY (India)

Number 4

- Optimizing Oxygen Absorption and Nitrogen Desorption in Packed Towers . . 221
 N. NIRMALAKHANDAN, Y. H. LEE & R. E. SPEECE (USA)
- The Relationship Between Ammonia Production and Oxygen Concentration in Water and the Biomass of Eels and Level of Protein in the Diet of *Anguilla anguilla* L. 235
 G. DEGANI & D. LEVANON (Israel)
- Formulation of Aquaculture Development at an Ox-bow Lake in Malaysia. I. Technical Evaluations of Site Suitability 245
 YAP SIAW-YANG, ONG HEAN-TATT & ABDUL RAHMID KIDAM
 (Malaysia)
- An Automated Water Quality Data Acquisition System for Use in Aquaculture Ponds 265
 THOMAS M. LOSORDO, RAUL H. PIEDRAHITA &
 JAMES M. EBELING (USA)
- Inshore Versus Offshore Farming. 279
 TORE L. SVEÄLV (Sweden)

Short Communication

- Bacteria Associated with Cultured Rotifers and Artemia are Detrimental to Larval Turbot, *Scophthalmus Maximus* L. 289
G. PEREZ BENAVENTE & F. J. GATESOUBE (France)

Number 5

- Functions of a Stream Unit on the Growth of Phytoplankton, Zooplankton and Fish Fry in a New Culture Tank System 295
S. YAMASAKI, H. HIRATA (Japan), S. H. CHEAH, K. J. ANG & A. Z. ABIDIN (Malaysia)
- Hydrology of Fish Culture Ponds in Gualaca, Panama 309
D. R. TEICHERT-CODDINGTON, N. STONE & R. P. PHELPS (USA)
- Artificial Reefs in Japan—A General Outline 321
JEAN-MARIE THIERRY (Japan)
- Effects of Water Depth and Artificial Mixing on Dynamics of Philippines Brackishwater Shrimp Ponds 349
ARLO W. FAST, KENT E. CARPENTER (USA), VICTOR J. ESTILO & HERNANE J. GONZALES (Philippines)

Short Communication

- The Settling Rates of Larval Feeds 363
JOHN R. BACKHURST & JOHN H. HARKER (UK)

Number 6

- Sieving as an Effluent Treatment Method for Aquaculture 367
TIMO MÄKINEN, SEPPO LINDGREN & PÄIVI ESKELINEN (Finland)
- The Suspension of Feeds in Aerated Rearing Tanks: The Effect of Tank Geometry and Aerator Design 379
JOHN R. BACKHURST & JOHN H. HARKER (UK)
- Applications of Pure Oxygen in Fish Culture 397
JOHN COLT & BARNABY WATTEN (USA)
- Short Communication**
- Thermal Disinfection of Seawater for Aquacultural Purpose 443
PÅL JACOBSEN & HELGE LILTVED (Norway)
